

Dots and Lines

Rules: Start the game. Each player takes turns drawing horizontal or vertical lines between adjacent dots connecting them together. If you complete a full square, write your initial in the box and take another turn. If your line creates two boxes, then you get to put your initial in both of them. Some strategy will be involved to see if you can create more boxes than your opponent.

Continue playing until all the dots on the page are connected. Count how many boxes each player has on the page. The player with the most boxes wins. (see picture)
